ARCHLINE.XP interior

SPECIAL TOOL TO COMPLETE YOUR INTERIOR DESIGN PROJECTS

Created for interior designers, decorators and interior stylists.
Start from the floor plan & finish with photorealistic rendering.
No prior CAD training required. An all-in-one, easy-to-use tool for
designing furniture, kitchens, bathrooms and living spaces. Mood board included.

Kata Sághy

MOOD BOARDS
Create digital mood boards to show the visual directions of your plan. Boost up your presentations with an eye-catching design compilation at the early project stages.
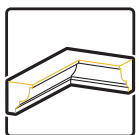

ADVANCED KITCHEN MODULE
The built-in, advanced editor enables parametric furniture design. Creating any furniture is extremely simple and intuitive.

TILE MODULE
Intuitive tool for designing the layout of ceramics and panels, allowing the use of shapes created by the user, as well as the use of built-in tile shapes such as hexagon, herringbone, triangle, fishbone and many more.

STUCCO AND MOLDINGS
An extensive module for creating decorative moldings and stucco moldings, thanks to parameterization, gives a lot of flexibility when it comes to creating complex projects. Based on any profile, you can quickly automatically insert decorative strips to all rooms in the project.

Miklós Elek

LIGHTING

Lighting sets the mood for each room. The use of natural or artificial lighting can have a major impact on the overall look of a room. Advanced workflow techniques help to visualize lighting in ARCHLine.XP.

LIGHTING PLAN

Lighting plan represents the wiring as 2D linework. The symbolic representation of the lamps enables a uniform layout of the floor plan.

CURTAINS, BLINDS

The parametric module for curtains and blinds allows you to quickly and easily adjust window blinds to any project. Make the room feel cozy with the realistic curtains, Roman blinds, Venetian blinds.

STUNNING VISUALS

Built-in high-quality rendering engine, add-on ARCHLine.XP LIVE module for real-time 3D VR visualization and 360 panorama.

ARCHLINE.XP

FULL DOCUMENTATION

Automatic creation of project documentation, dimensioning, sections, and automatic creation of project documentation.

COMPATIBILITY WITH MANY FILE FORMATS

Ability to import and export files in several 2D and 3D formats.
DWG, IFC, SKP, OBJ, RVT and many more.
Downloading 3D models from 3D-Warehouse.

LIVE

ARCHLine.XP LIVE transforms BIM/CAD models into impressive 3D spaces where people walk, a gentle breeze moves trees, fires roar in the fireplace. ARCHLine.XP LIVE is easy to use and learn.
